

This project is a project that will provide us with new perspectives and learn how we can progress on the way to our goals with small changes we will make in our lives. The project is student-centered and an interdisciplinary project in which students take an active role in the learning process. Many disciplines are included in our project. Especially foreign language, Social Studies, Painting, Music, Technology Design and Guidance courses will be carried out in cooperation.

Our project is a student-centered project and activities will be designed accordingly. Students will be able to express themselves during the project process and communicate with students from other countries. In this context, it will be very useful for our students' language development. Students will be involved in the learning process by taking an active role in all activities.

İlk online toplantımız

Partner takımların yazdıkları şarkılardan oluşan interaktif bir kitap oluşturuldu.
